---

After reviewing the agenda for Monday's Council Meeting, it seems appropriate to provide some insight on the background of some of the registered speakers:

Matthew Bruce-

Arrested with felony charges pending for destroying a squad car, as well his participation in attacking the plain clothes detectives at the State Capital. He has been at the forefront in organizing many of the protests, to include providing the direction and tactics to fight with the police. He was also kind enough to hold a press conference upon his release from jail where he told the media that myself and Sgt. Parizek "beat" our wives. Has led many profanity laced marches directing participants to block traffic and encouraged defacing property with spray paint. We have confirmed information that Bruce is the ringleader as it pertains to the violence, disruption and vandalism, and was overhead providing direction at Skateland (Meredith Drive) on how to fight with law enforcement.

Jaylen Cavil-

Arrested for interfering with a lawful arrest where he refused to move and allow officers access to a suspect with felony charges. Multiple anti-law enforcement/anti-government posts on his social media, including a comment about burning down the police station. Cavil is also fond of leading profanity laced chants in public places, such as in front of the courthouse during business hours and at the downtown sculpture park.

Indira Sheumaker-

Arrested for destroying the squad car and assault on a police officer for her involvement in attacking the detectives at the capital. Her social media includes disparaging remarks about Representative Ako Abdul-Samad and newly promoted Captain Lillie Miller.
